ABOUT US

Our Mission Statement:

"To enrich community spirit through educational, cultural and social gatherings in our historic Community House."

About SCA Inc.

The Sanibel Community Association (SCA) is an independent nonprofit that operates "The Community House," which not only serves as an event location but also offers programming for kids and adults, as well as rental space. The Community House is composed of 4 rooms that can be rented separately or altogether (the entire building). Churches, civic organizations, clubs, non-profits, and island families have used The Community House for their parties, weddings, fundraisers, and other special events for almost 100 years. Located conveniently in the heart of the island, The Community House is the place to meet neighbors and friends!

We invite you to be a contributing partner and help support events in our historic building, the only island venue that is uniquely Sanibel. There is always something happening at The Community House. Come join us and see!
